

Distribution of Short-beaked Echidna

'red square' = Species present, 'black dot' = species absent.

No. of images 7984.

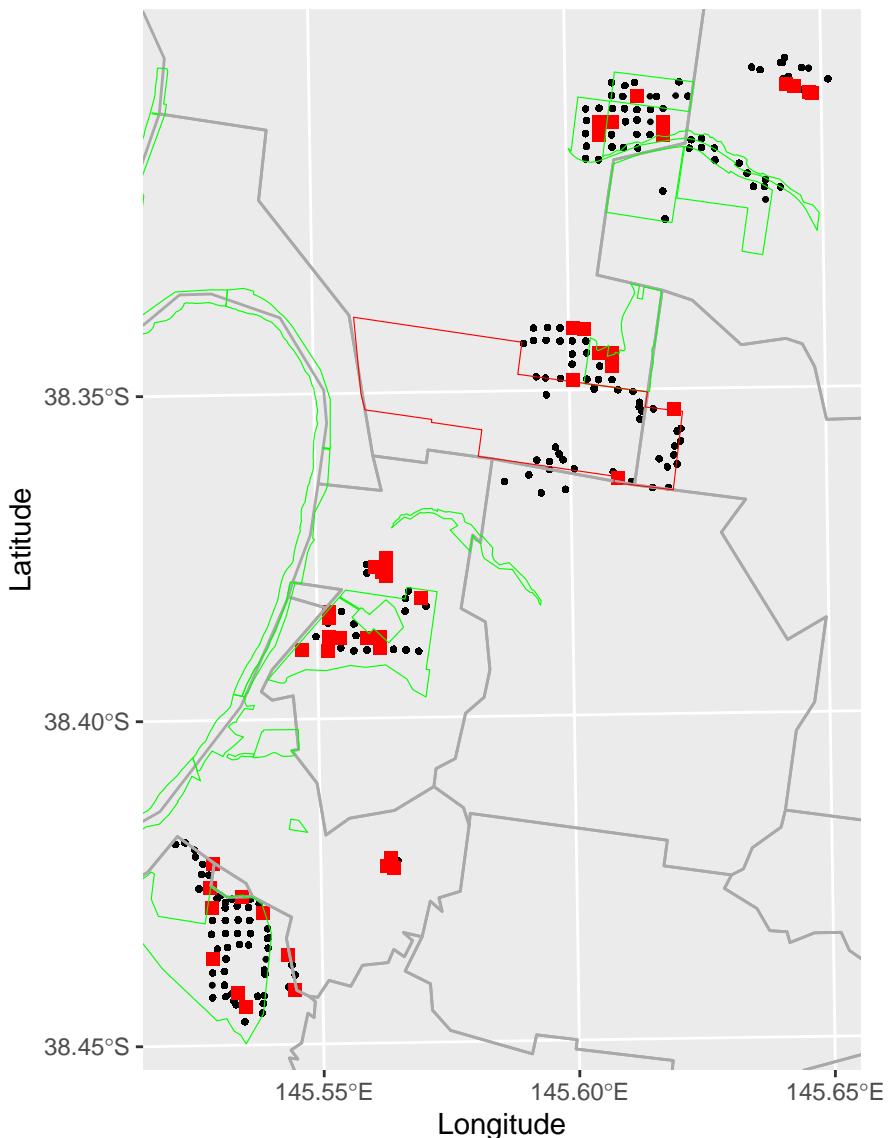

Fauna data from SBB Regional Recovery Group, 2011–2022.

Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Agile Antechinus

'red square' = Species present, 'black dot' = species absent.

No. of images 1188.

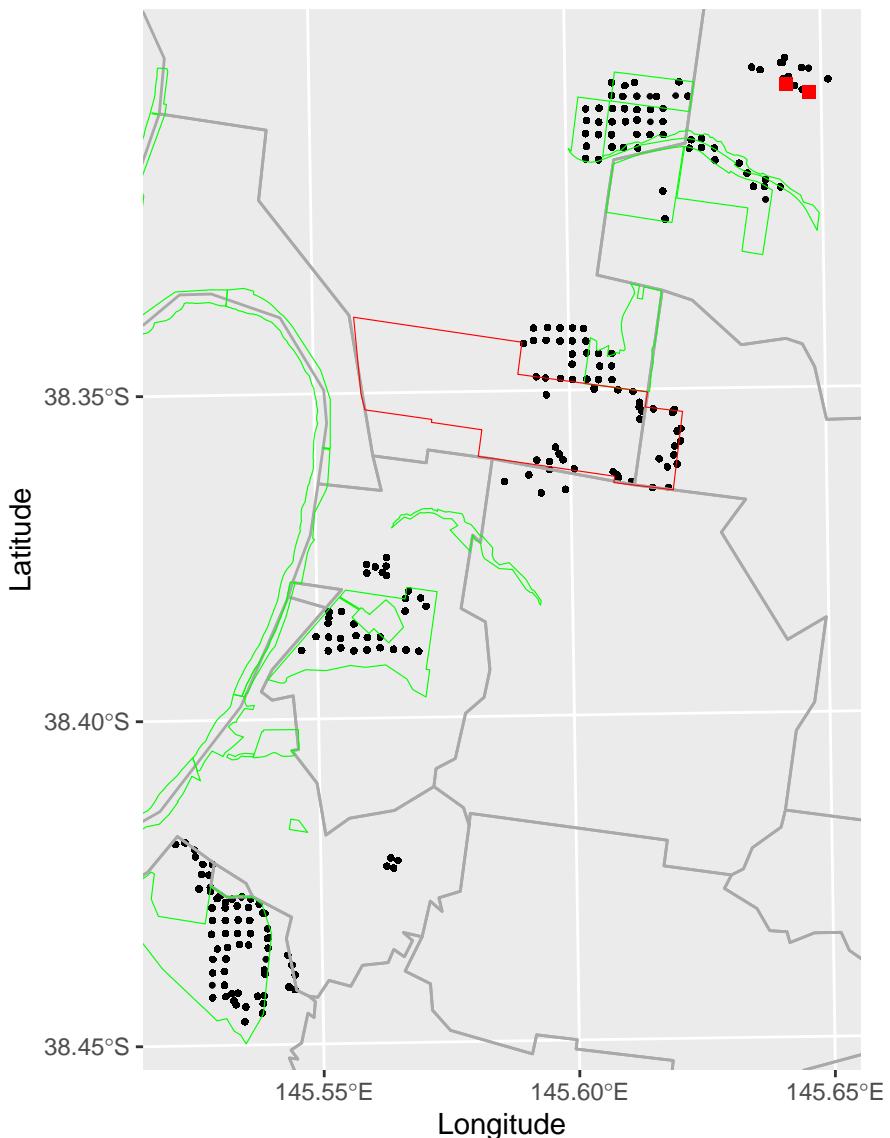

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Dusky Antechinus

'red square' = Species present, 'black dot' = species absent.

No. of images 14.

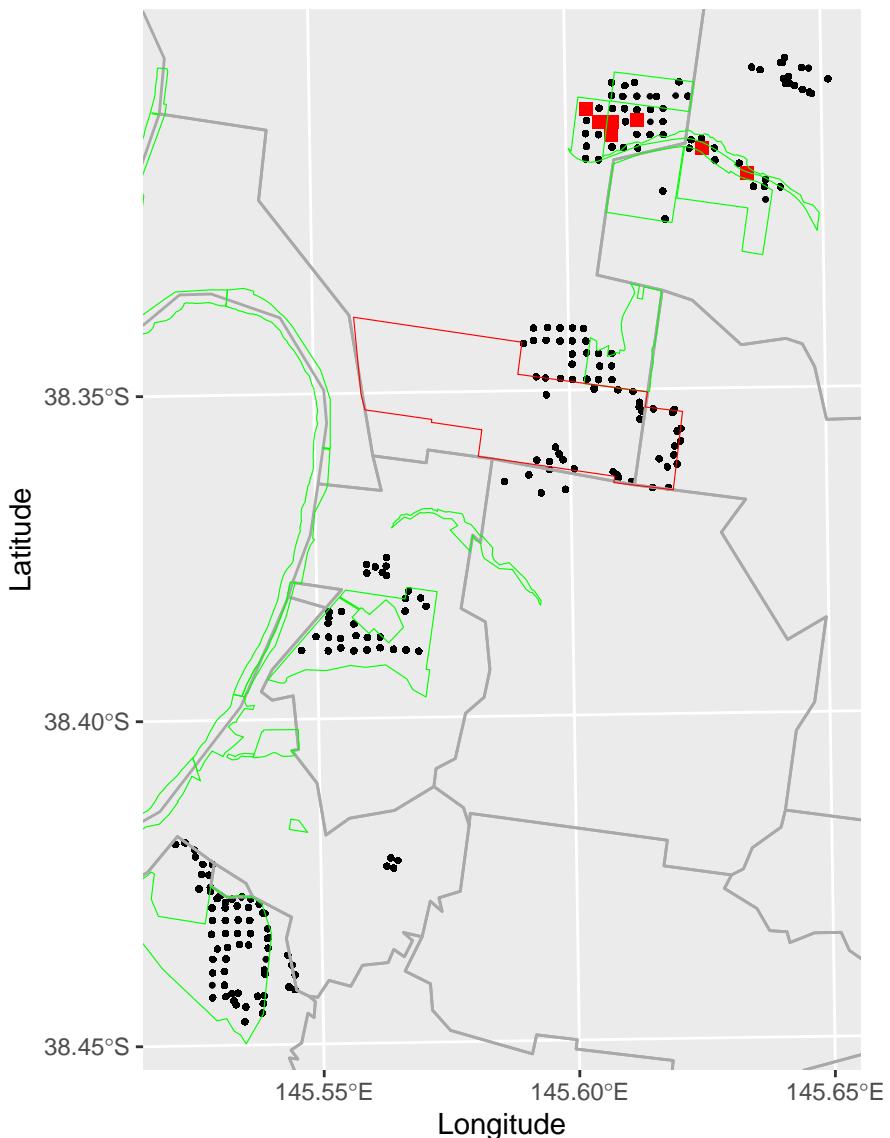

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Southern Brown Bandicoot

'red square' = Species present, 'black dot' = species absent.

No. of images 514.

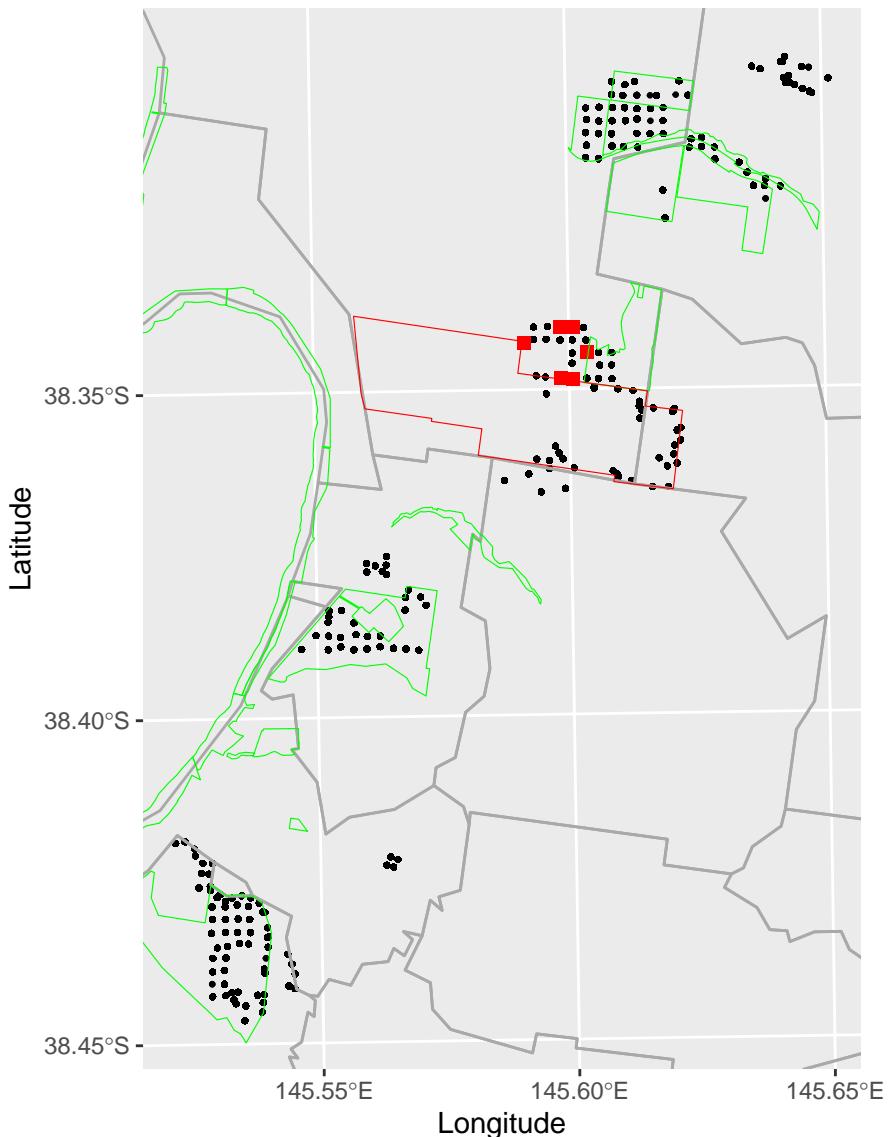

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Long-nosed Bandicoot

'red square' = Species present, 'black dot' = species absent.

No. of images 673.

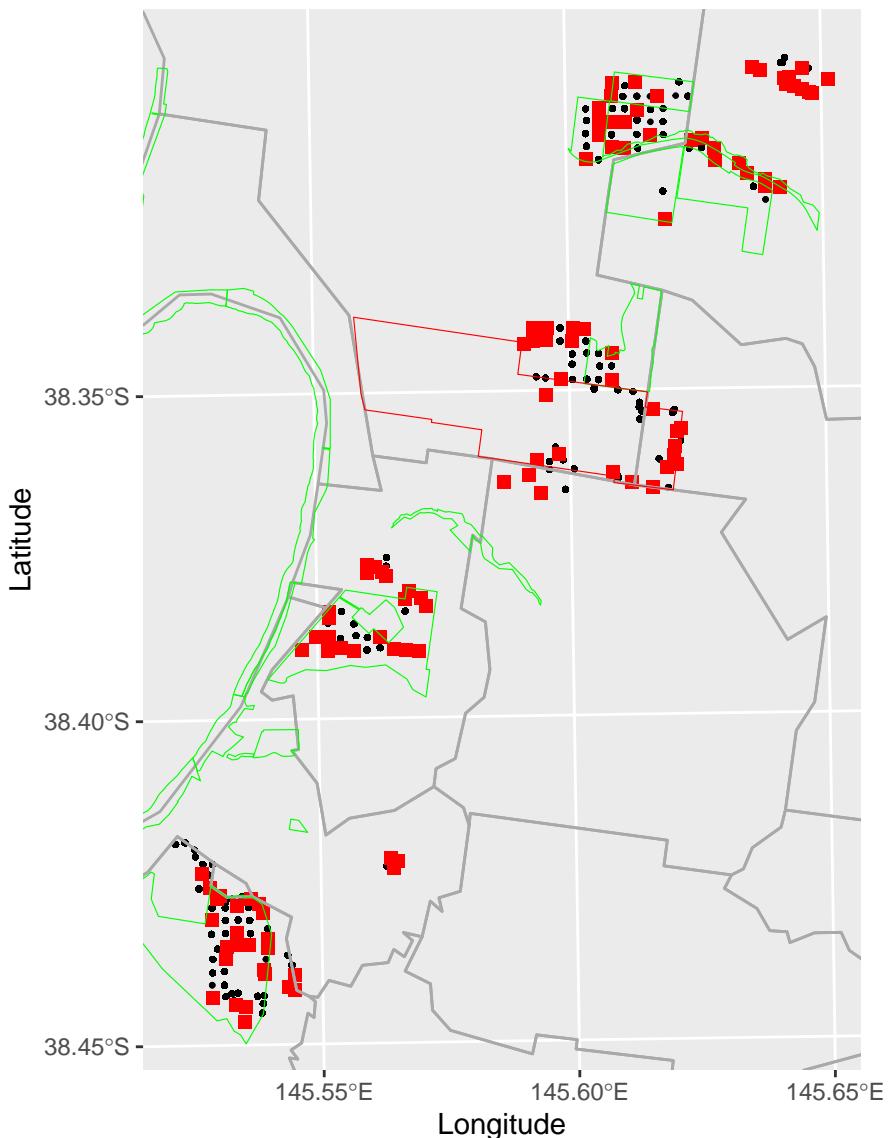

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Common Wombat

'red square' = Species present, 'black dot' = species absent.

No. of images 12669.

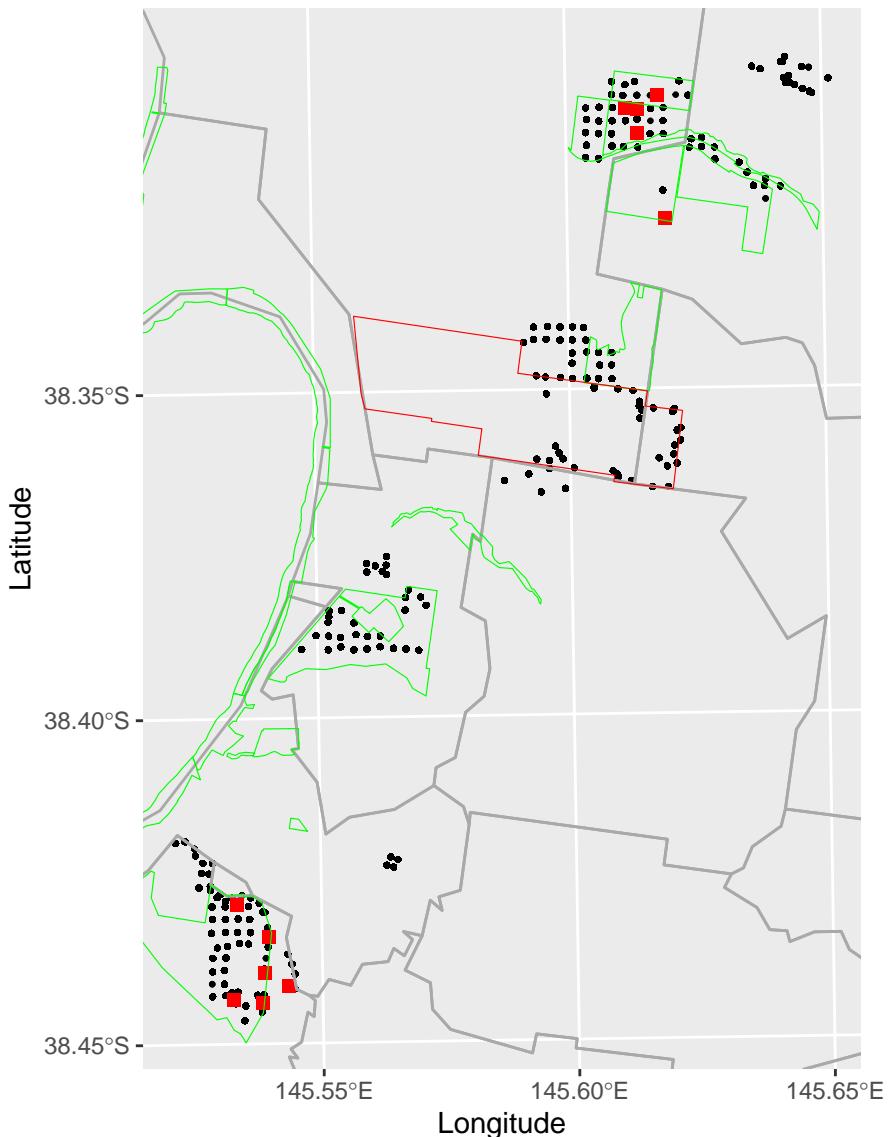

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Koala

'red square' = Species present, 'black dot' = species absent.

No. of images 145.

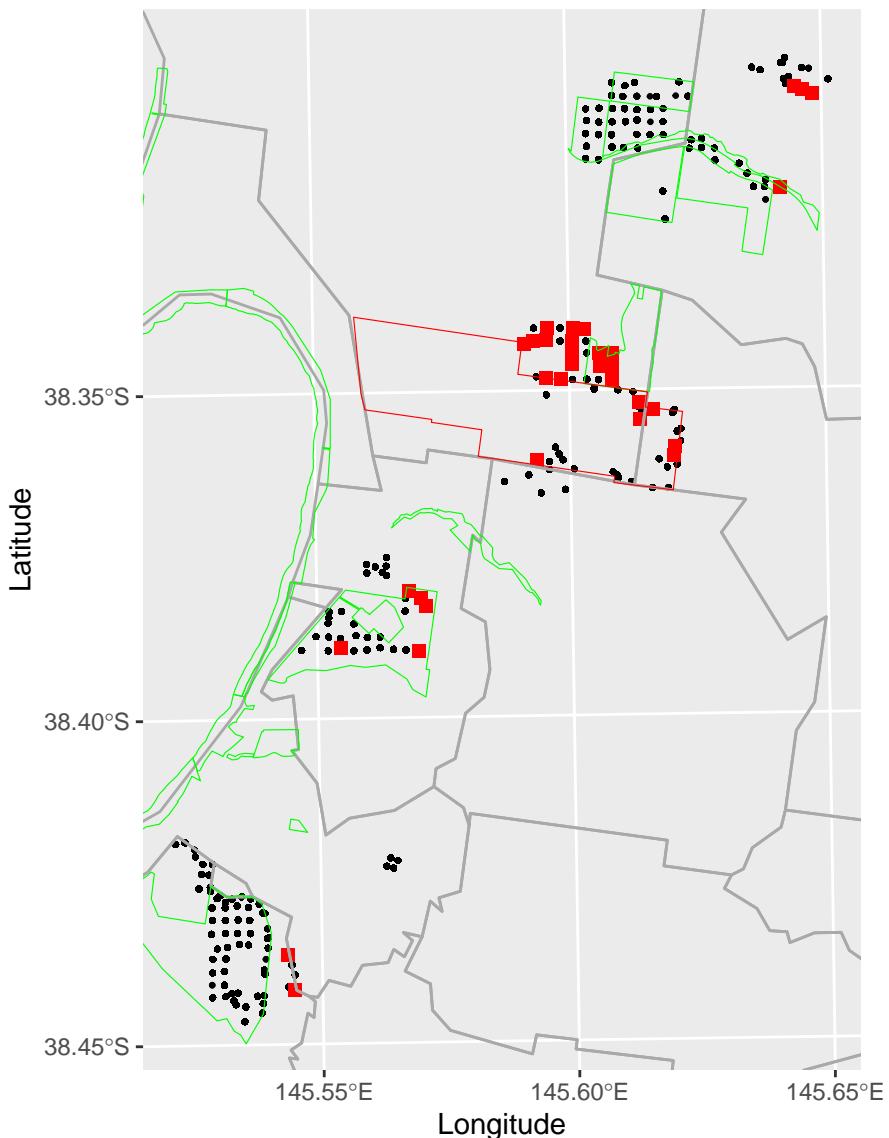

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Mountain Brushtail Possum

'red square' = Species present, 'black dot' = species absent.

No. of images 2025.

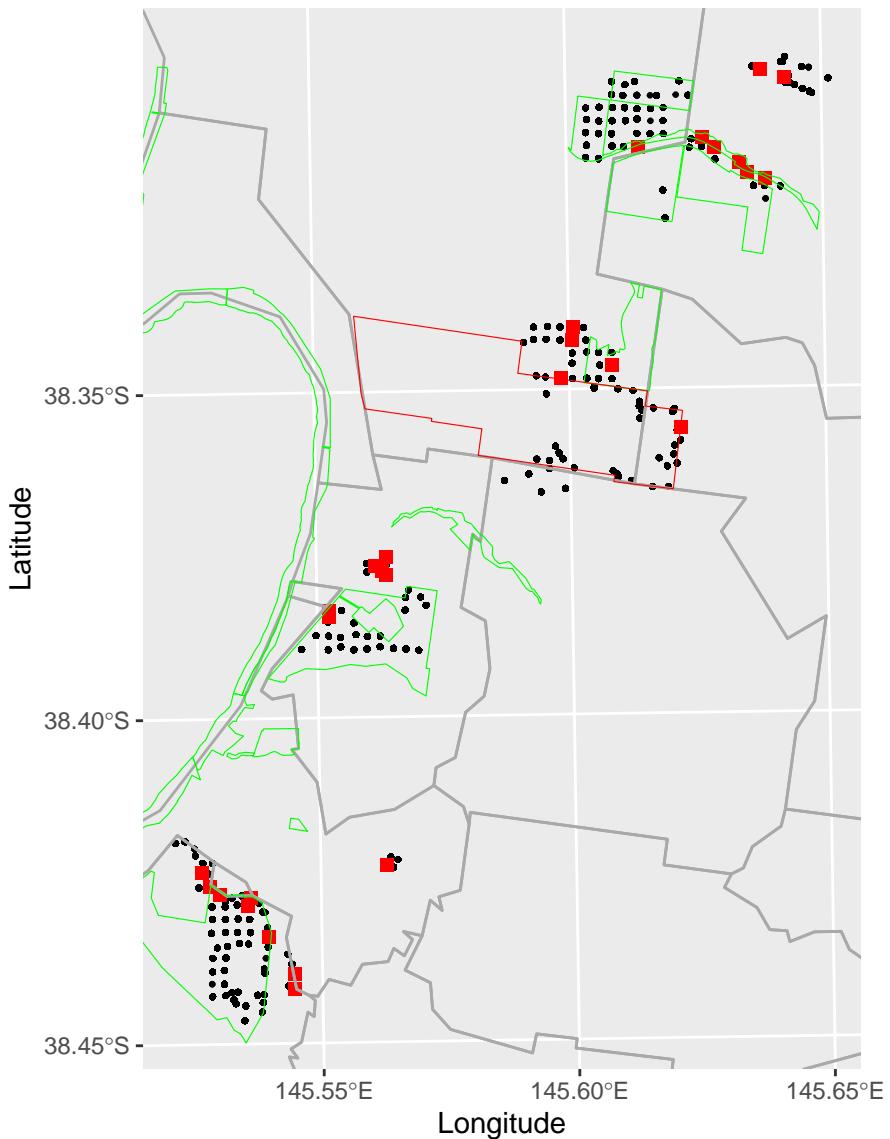

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Common Brushtail Possum

'red square' = Species present, 'black dot' = species absent.

No. of images 2237.

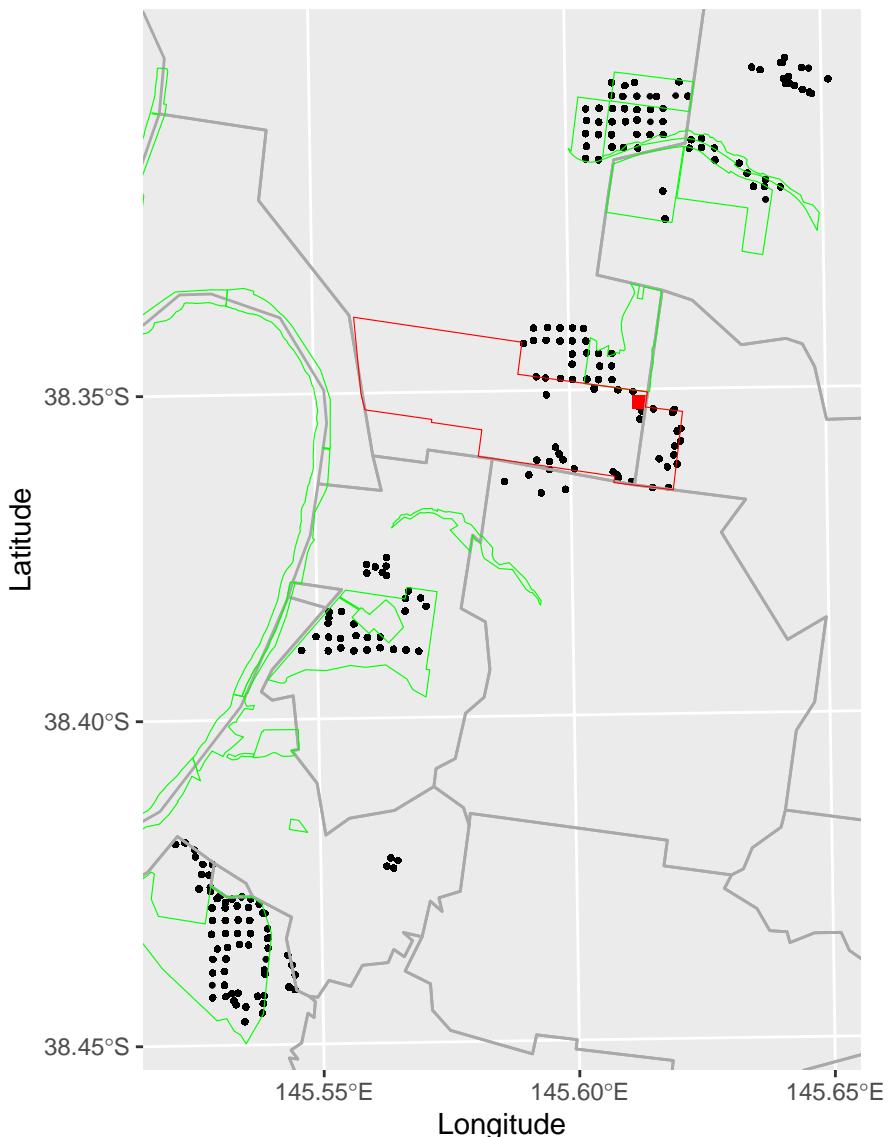

Fauna data from SBB Regional Recovery Group, 2011–2022.

Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Sugar Glider

'red square' = Species present, 'black dot' = species absent.

No. of images 10.

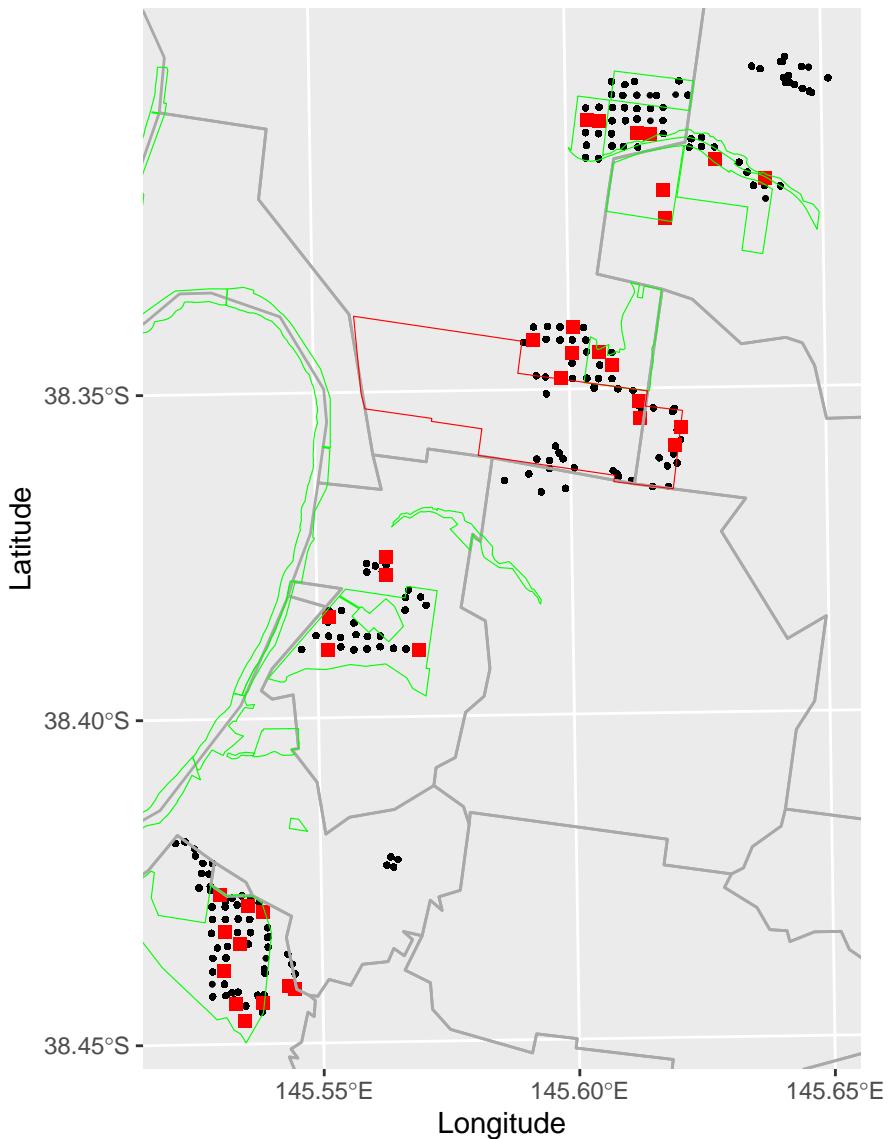

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Common Ringtail Possum

'red square' = Species present, 'black dot' = species absent.

No. of images 1289.

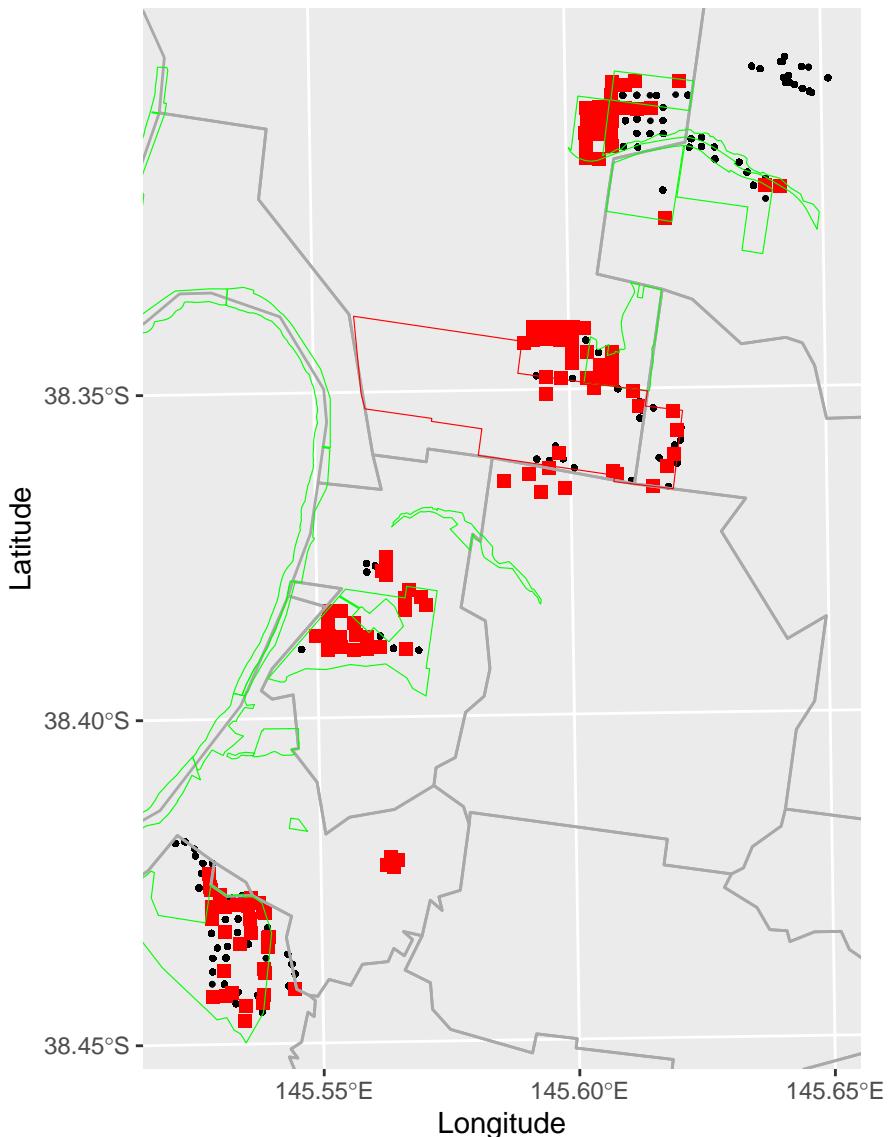

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Eastern Grey Kangaroo

'red square' = Species present, 'black dot' = species absent.

No. of images 48154.

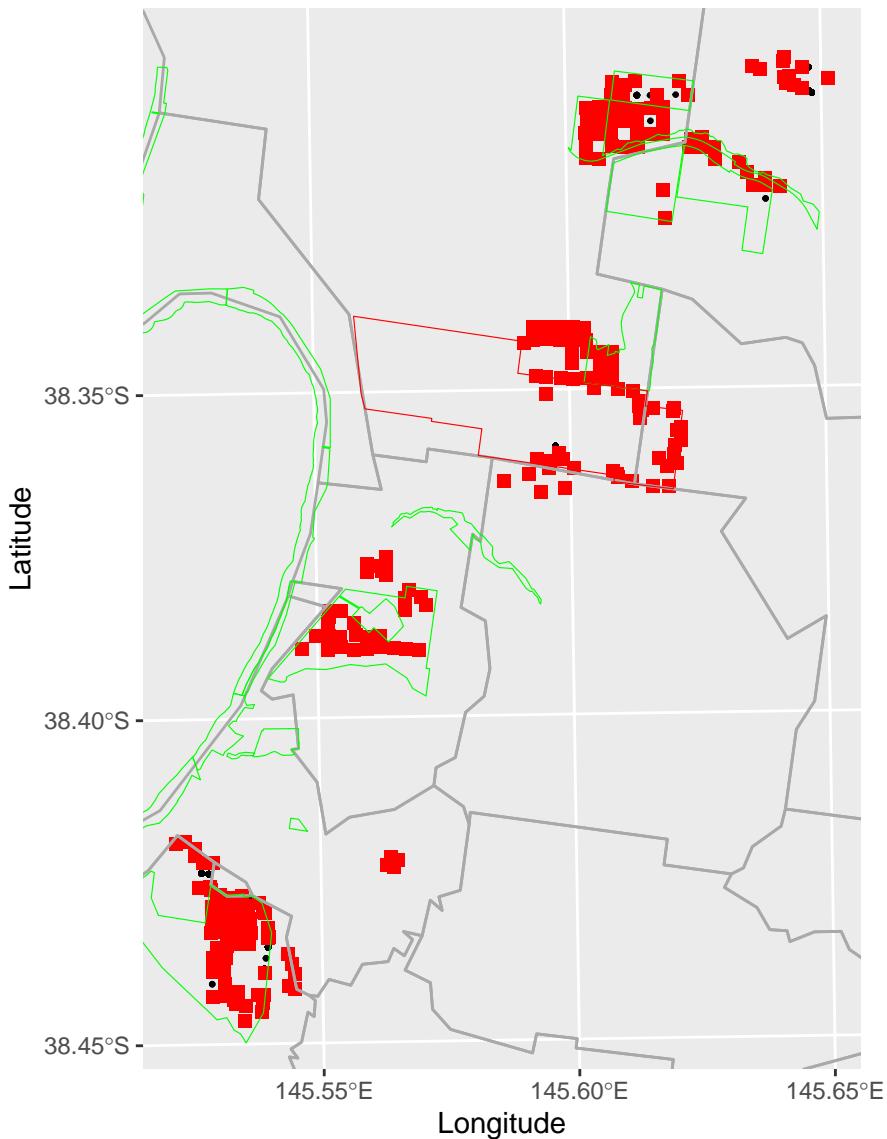

Fauna data from SBB Regional Recovery Group, 2011–2022.

Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Black Wallaby

'red square' = Species present, 'black dot' = species absent.

No. of images 155242.

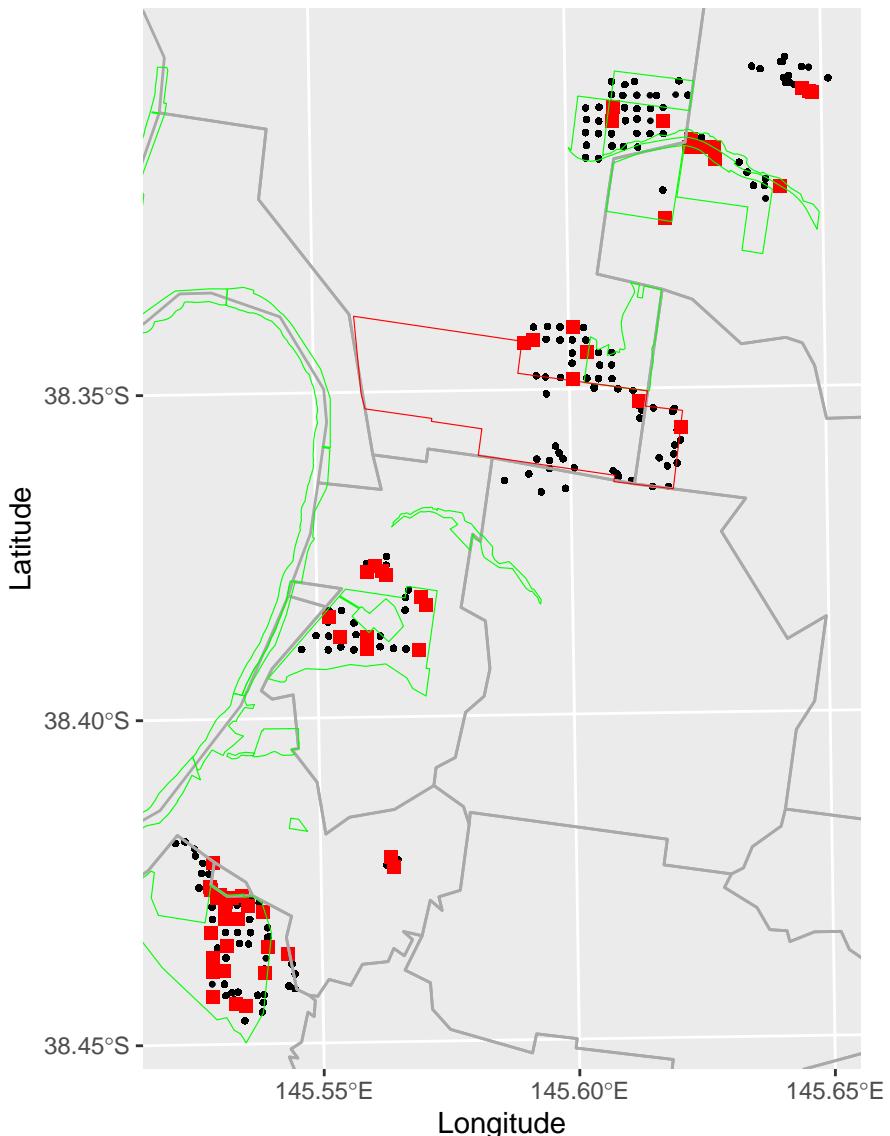

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Bush Rat

'red square' = Species present, 'black dot' = species absent.

No. of images 3391.

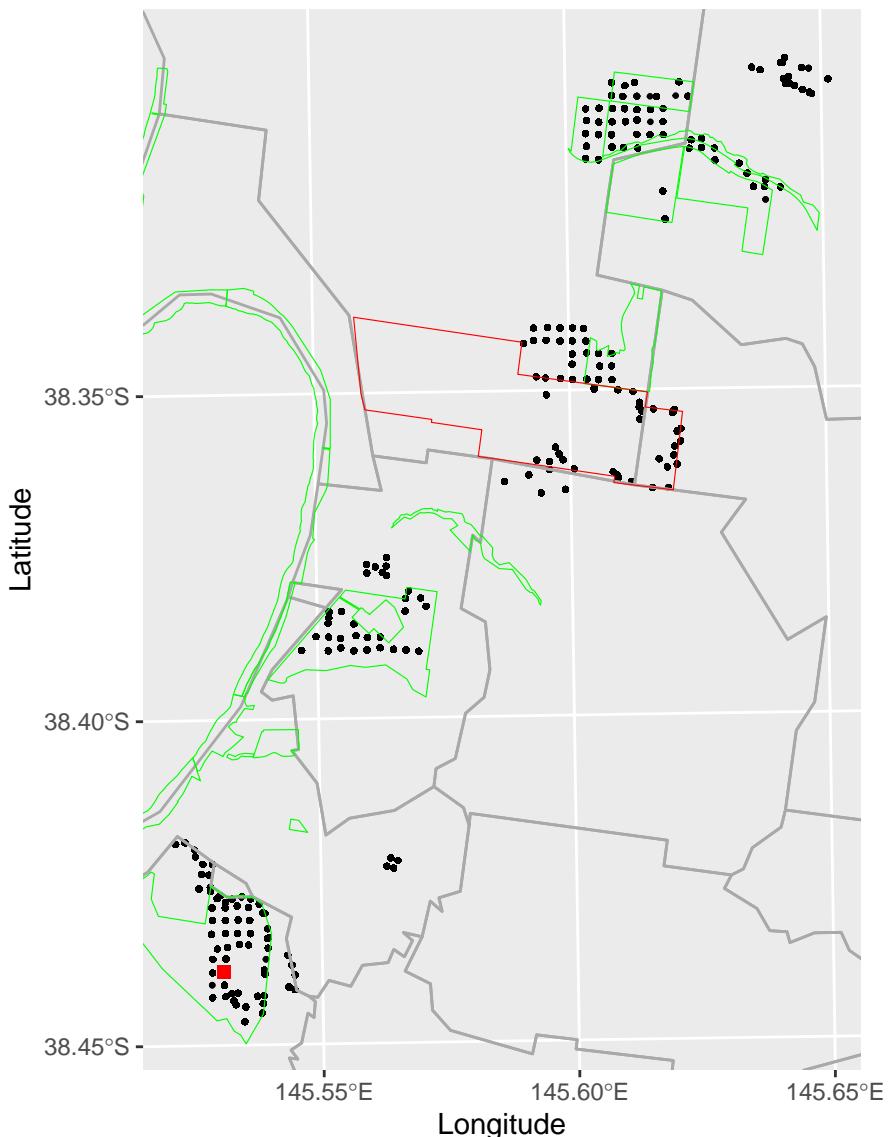

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Swamp Rat

'red square' = Species present, 'black dot' = species absent.

No. of images 8.

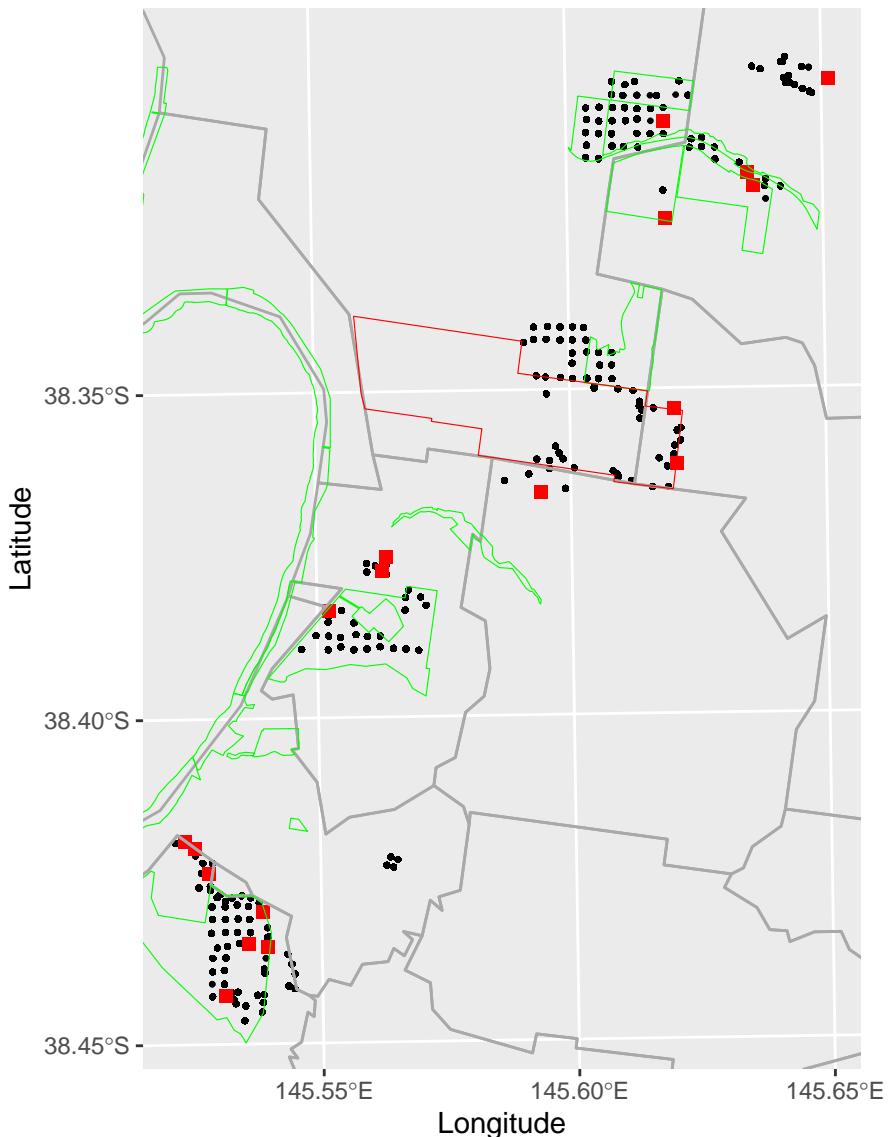

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Black Rat

'red square' = Species present, 'black dot' = species absent.

No. of images 643.

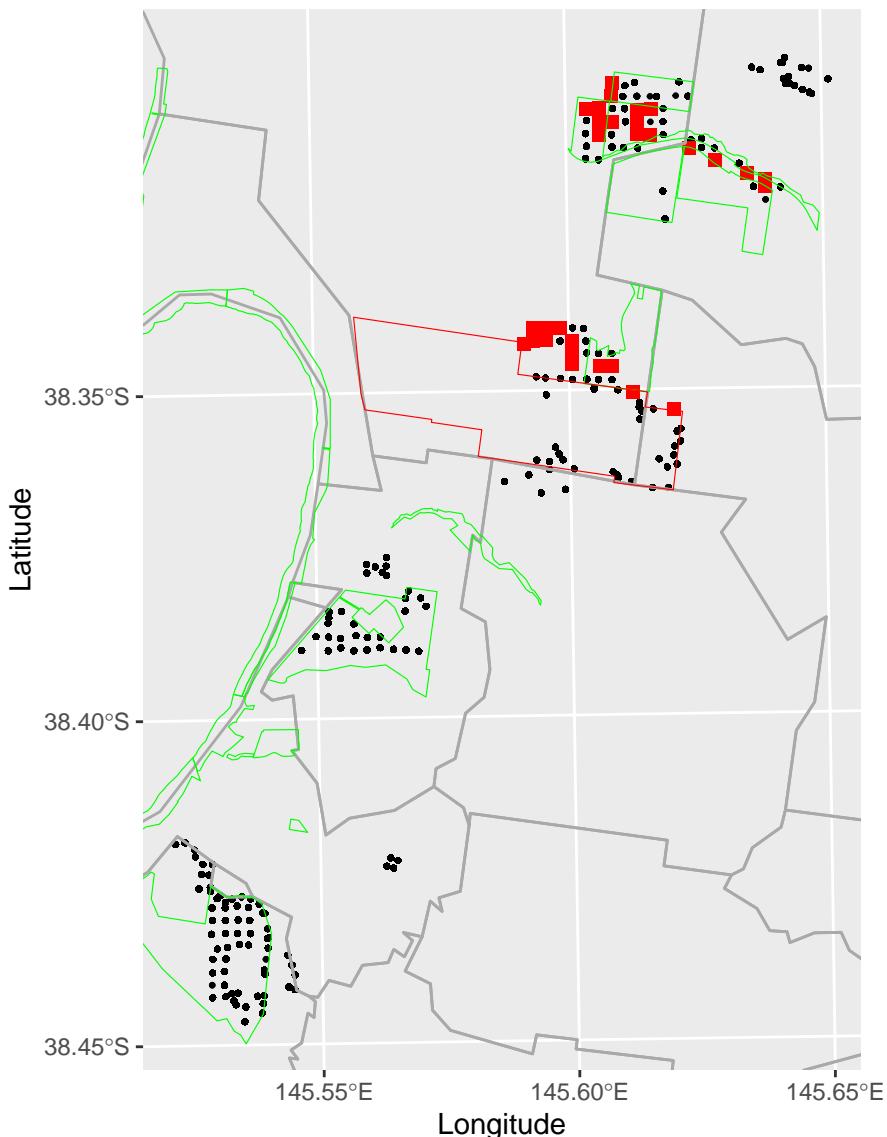

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of deer

'red square' = Species present, 'black dot' = species absent.

No. of images 2350.

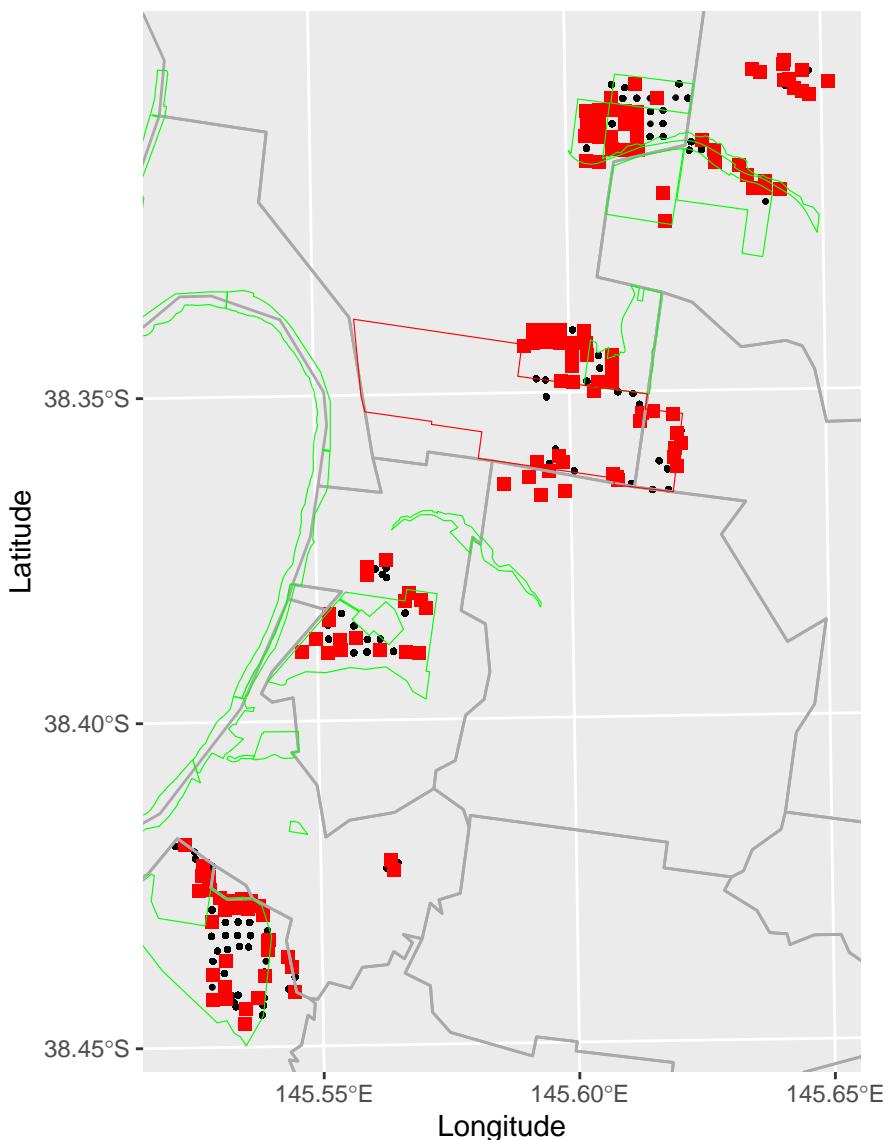

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Red Fox

'red square' = Species present, 'black dot' = species absent.

No. of images 5440.

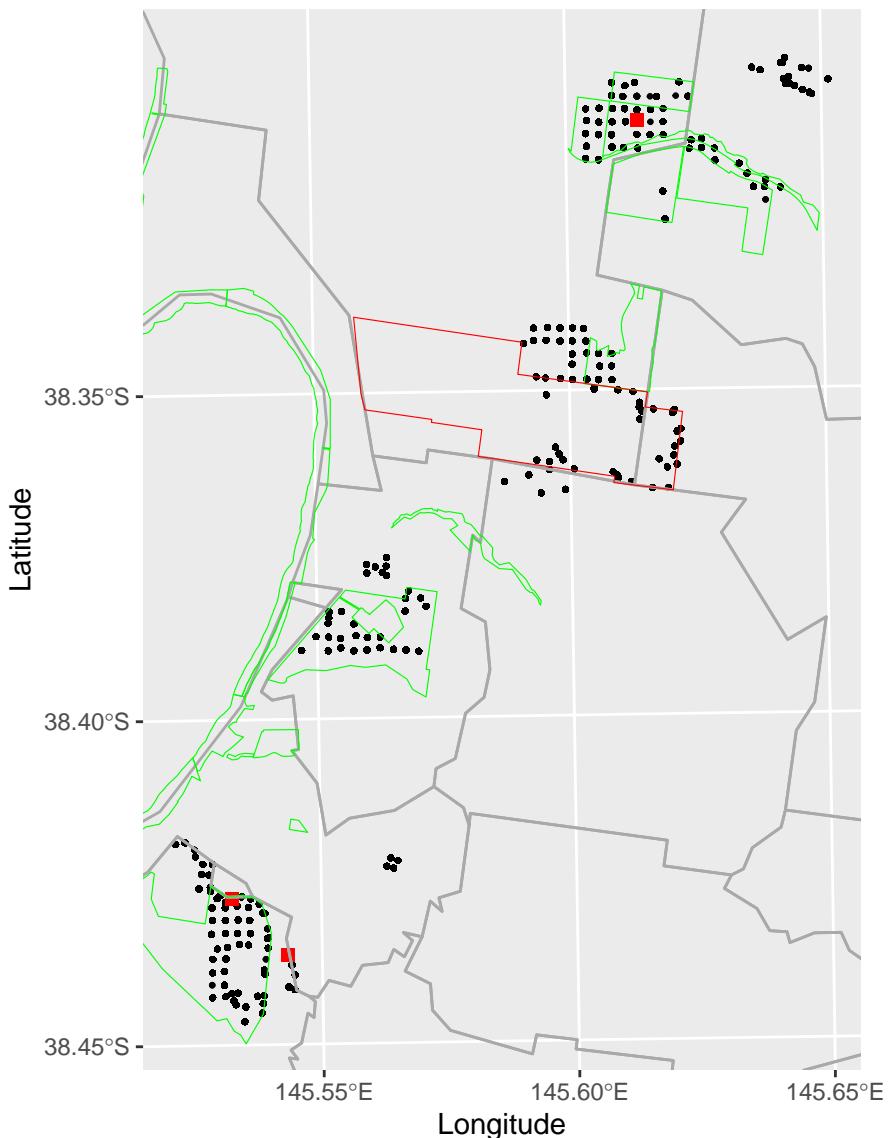

Fauna data from SBB Regional Recovery Group, 2011–2022.

Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Cat

'red square' = Species present, 'black dot' = species absent.

No. of images 31.

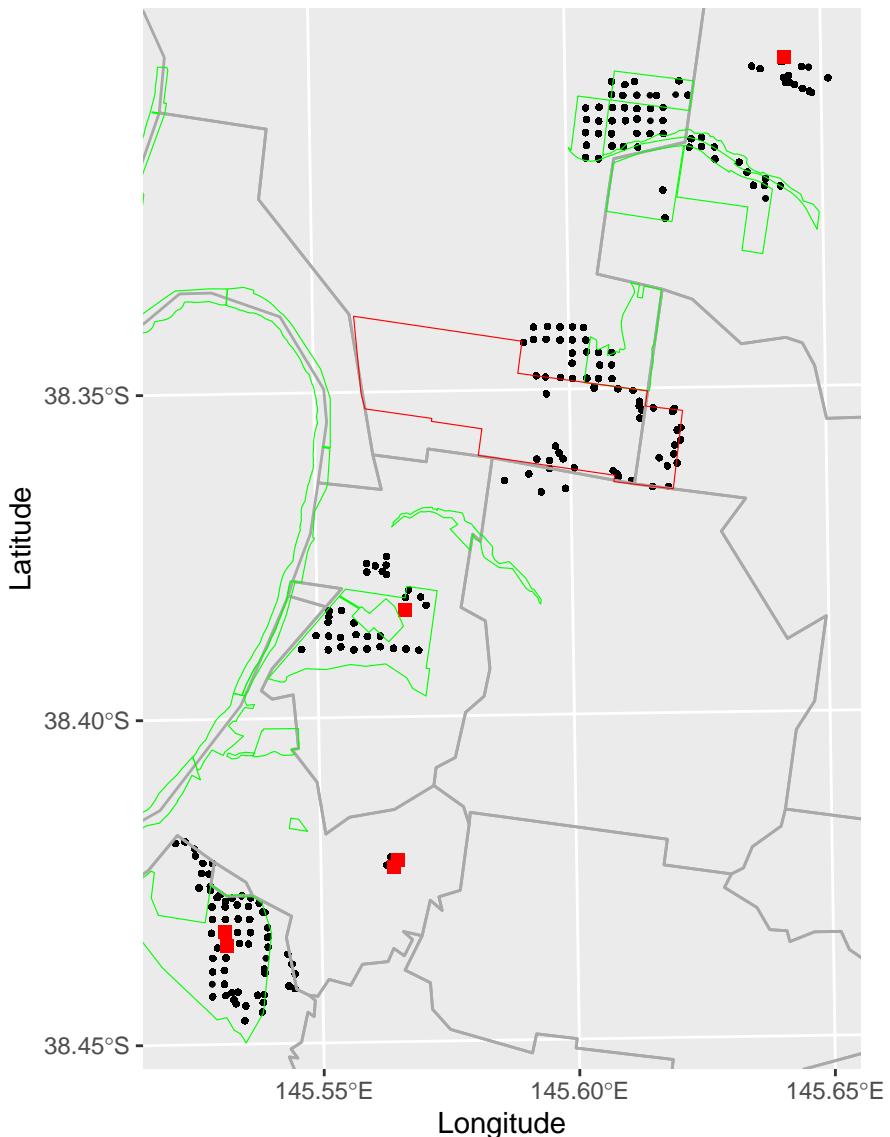

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Painted Button-quail

'red square' = Species present, 'black dot' = species absent.

No. of images 63.

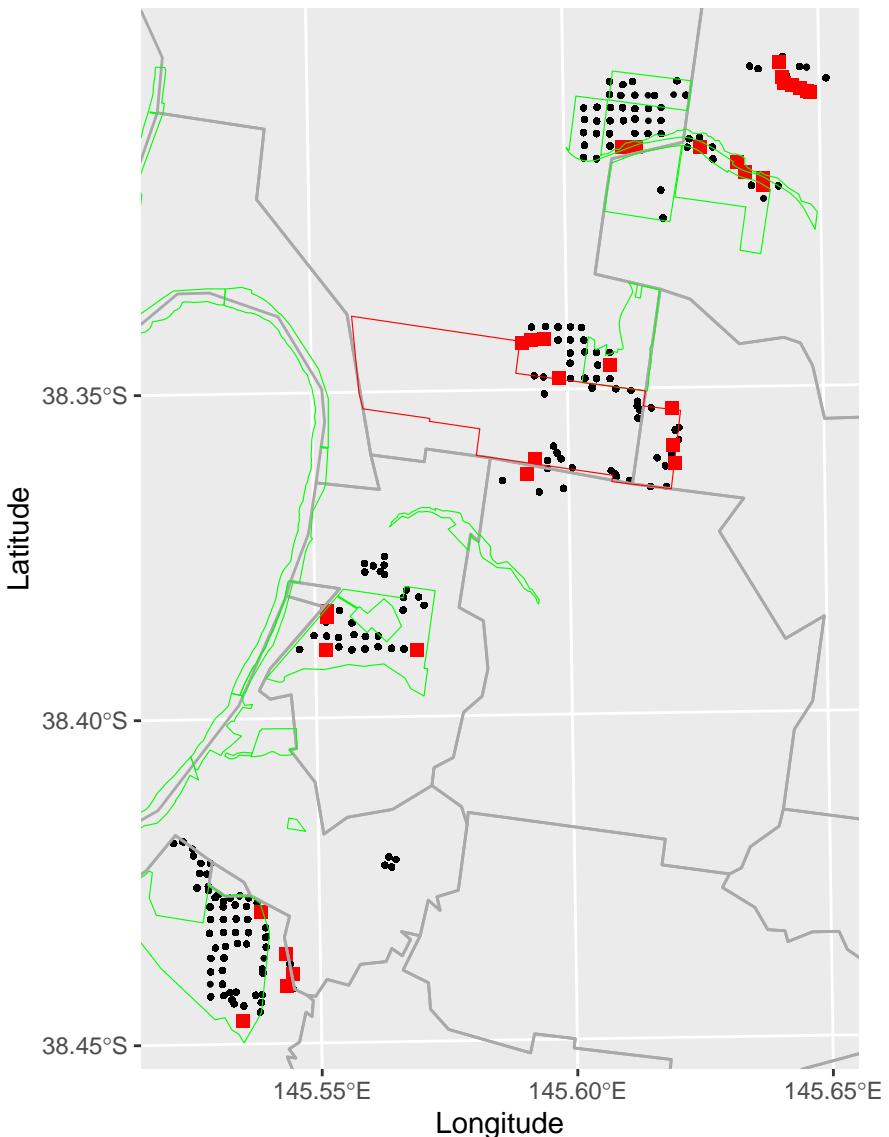

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Bassian Thrush

'red square' = Species present, 'black dot' = species absent.

No. of images 2192.

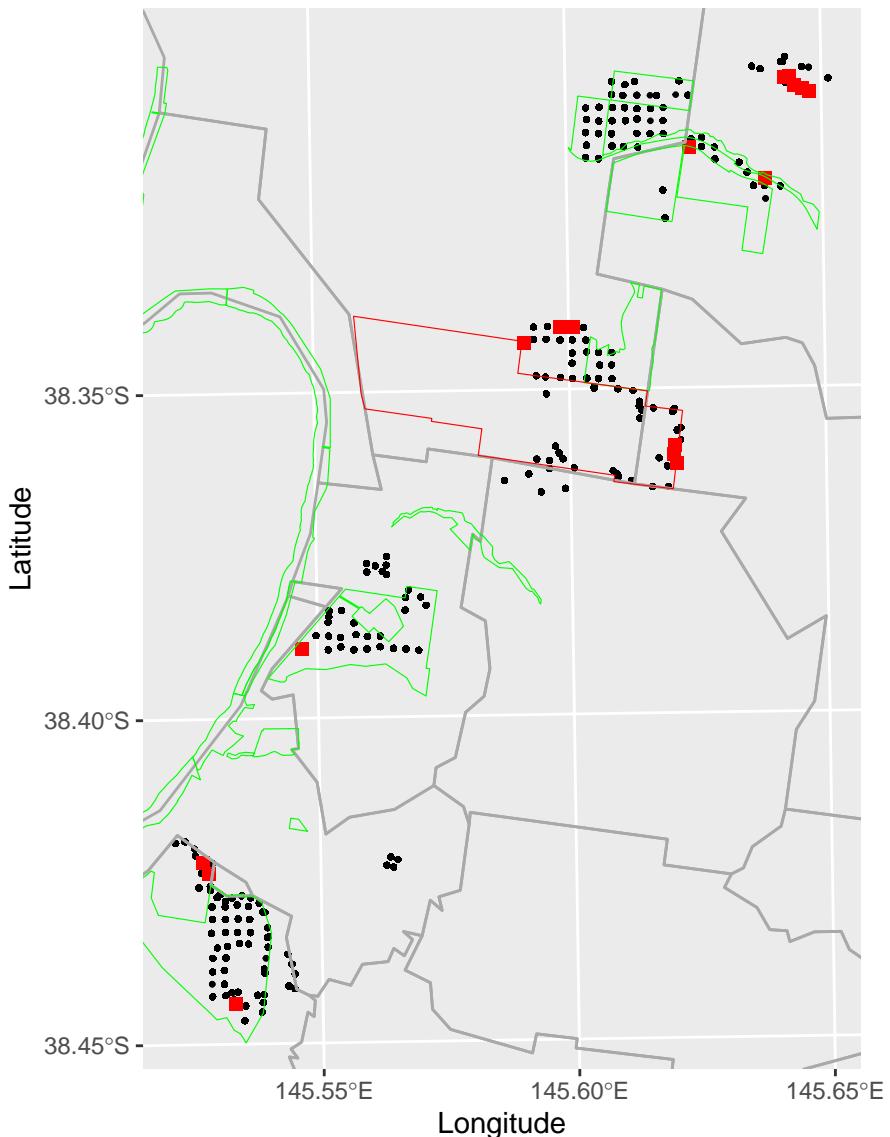

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Eastern WhipBird

'red square' = Species present, 'black dot' = species absent.

No. of images 320.

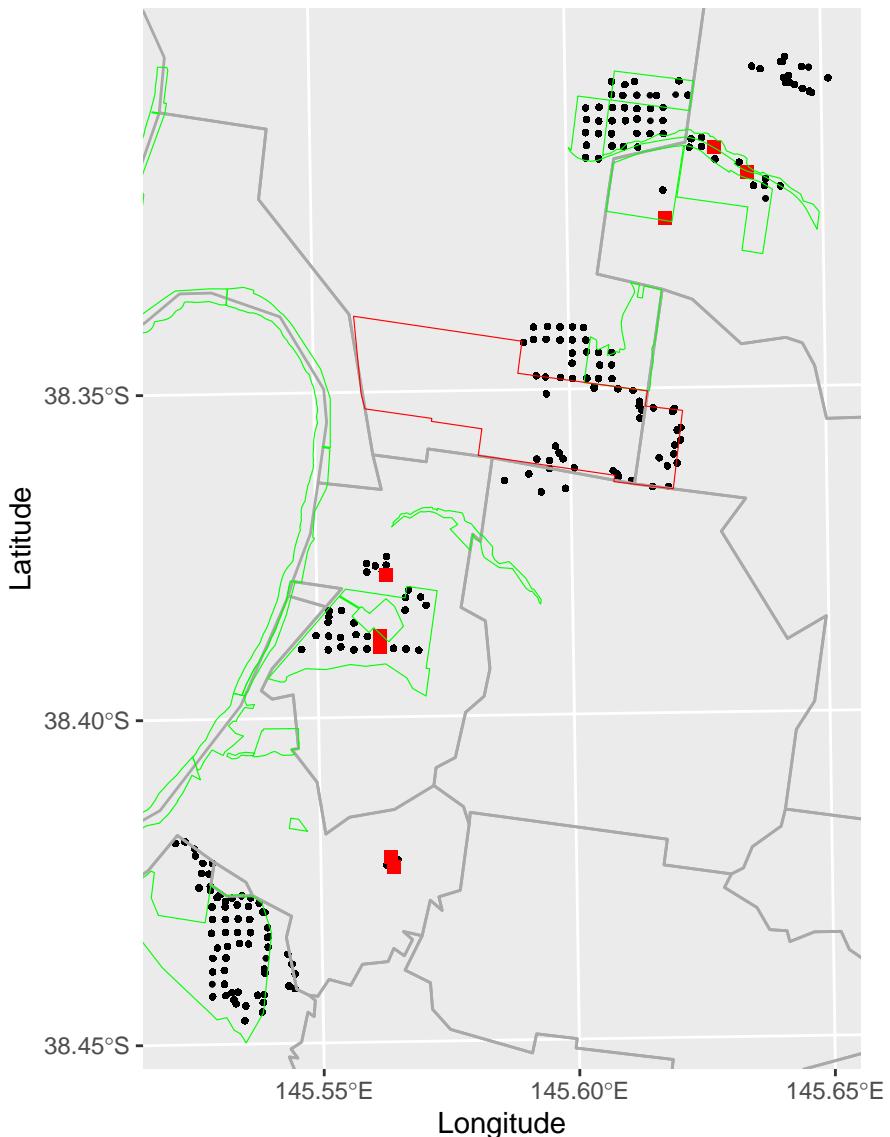

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Lace Monitor

'red square' = Species present, 'black dot' = species absent.

No. of images 189.

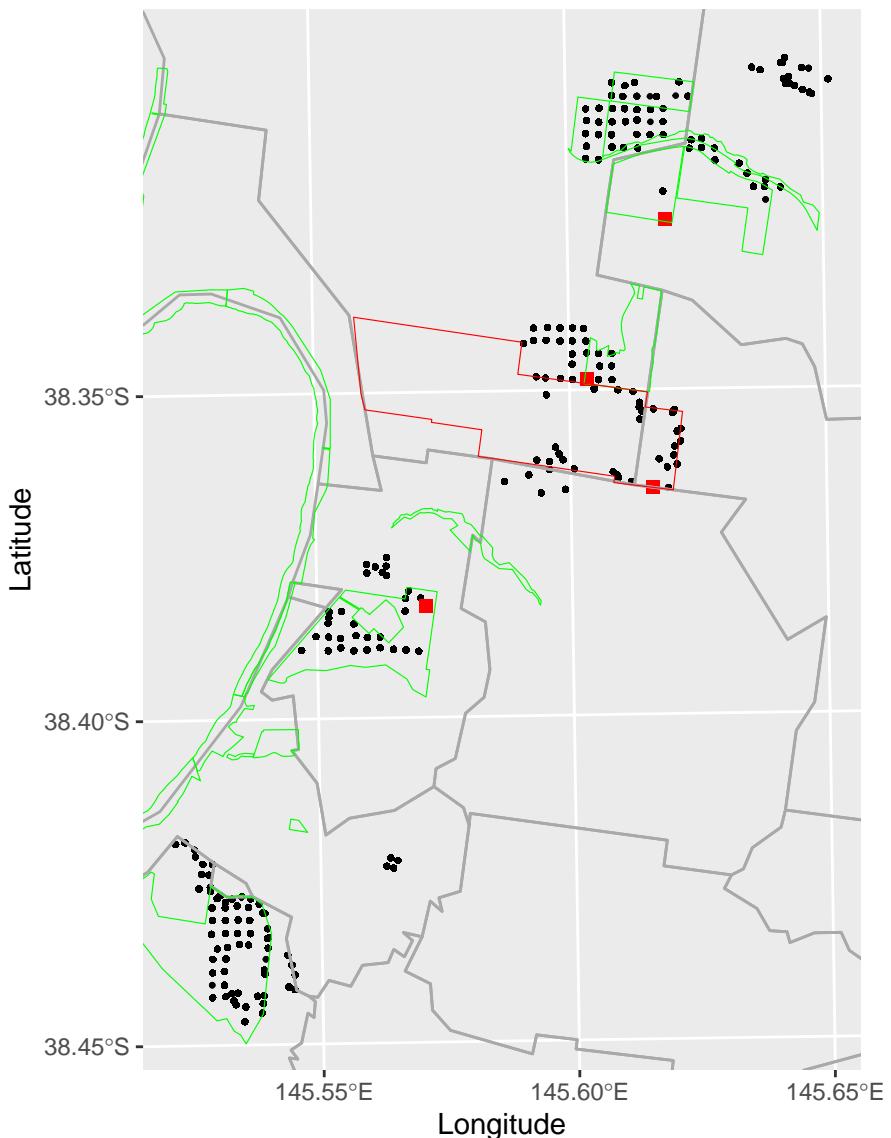

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground

Distribution of Blotched Blue-tongue Lizard

'red square' = Species present, 'black dot' = species absent.

No. of images 25.

Fauna data from SBB Regional Recovery Group, 2011–2022.
Map data from Vic Map, Victoria: Locality, PV reserves, LL Proving Ground
